

DR. JENNIFER KUETER

SUMMARY

Dynamic professor brings 7 years of higher education and 28 years of teaching experience. A highly motivated employee with a desire to take on new challenges and meet the diverse needs of students. Strong work ethic, adaptability, and exceptional interpersonal skills. Encourages students to actively participate in all aspects of the educational process. Uses various assessment tools and strategies to improve instruction methods. Ready to contribute my expertise to the University of Missouri and help shape the future of education.

EXPERIENCE

Adjunct Professor

University of Missouri | Columbia, MO | August 2016 - present

- Developed and adjusted course content and syllabi to meet diverse student needs.
- Conducted office hours weekly to provide assistance with course material or address any questions or concerns from students.
- Assisted in curriculum design for new courses or programs based on current educational trends and standards.
- Supported students in achieving learning objectives.
- Researched best practices for effective teaching methods in order to improve instructional delivery.

Elementary Teacher

Anchorage School District | Anchorage, AK | September 1995 - May 2023

- Engaged students and developed an understanding of content using focused instructional strategies and hands-on activities.
- Utilized technology-based learning tools to enhance instruction.
- Created, adapted, and modified learning materials to support student learning.
- Ensured student access using equity-based practices

Math Academic Alignment Committee

Anchorage School District | Anchorage, AK | August 2012 - May 2019

- Created Academic Plan for connecting math curriculum to Common Core standards.
- Created assessments and supplemental materials and resources to support implementation of standards.
- Facilitated district-based in-services on conceptual mathematics.

Mentor Teacher

Anchorage School District | Anchorage, AK | August 2000 - May 2023

- Supported the growth of preservice teachers through meaningful conversations focused on individual strengths.
- Advised on methods for effective teaching methodology to ensure productive classroom environments.
- Conducted regular one-on-one meetings with each mentee to discuss challenges, successes, and goals.
